

PRODUCT PROFILE

60 Second Gel

DIN 01910531

Product	Thixotropic Gel
Description	60 Second Gel is an Acidulated Phosphate Fluoron (APF) thixotropic gel containing 1.23% fluoride ion with a pH of 4 that provides high fluoride uptake rapidly and effectively.
Function	Indicated for topical application to aid in the protection against dental caries. Maximum fluoride uptake in just 60 seconds.
Packaging	450 mL bottle with convenient no-clog dispensing cap.

Features	Benefits
<i>Low pH</i>	Delivers 12,000 ppm fluoride in just 1 minute.
<i>One Minute Application</i>	Reduces the potential for gagging and gel ingestion. Lessens the possibility of etching or dulling restorations, thus increasing patient comfort and acceptance.
<i>Thixotropic Consistency</i>	No overflow in patient's mouth or throat. Closer adherence to enamel and interproximal areas.
<i>Shorter Treatment</i>	The 3 minutes savings per fluoride treatment adds up to 6 hours of savings per bottle.
<i>Great Taste</i>	Available in assorted, great tasting flavours for greater patient acceptability.
