

Germi-Stat 0.5%

DIN 01975242

DIN 02241528 (tinted)

Product	Germi-Stat is an antiseptic prep gel also available in a pink tint.
Description	A 70% isopropyl alcohol and 0.5% chlorhexidine gluconate antiseptic prep gel.
Function	Germi-Stat Prep Gel is used in waterless hand sanitizer or applied to the surgical site as an antiseptic for use prior to surgical procedures. It is effective against a wide range of microorganisms including gram-positive and gram-negative bacteria, virus, fungi and yeast.
Packaging	450 ml squeeze bottle

Features

Benefits

Ready-to-use	Germi-Stat Prep Gel is ready to use.
Antiseptic	Germi-Stat Prep Gel is an effective antiseptic against Pseudomonas, MRSA, Candida albicans and Serratia marcescens as a pre-surgical skin preparation.
Fast-Acting	Germi-Stat Prep Gel works quickly. Swab on the surgical site for 2 minutes and allow skin to air dry or for use on hands.
Available Tinted	Germi-Stat Prep Gel can be available tinted to highlight the area that has been swabbed with a “pinkish” hue.
