

# PRODUCT PROFILE

## GLUTERATE

DIN 02217902

<b>Product</b>	Sterilizing & High Level Disinfecting Solution
<b>Description</b>	A stable 2% glutaraldehyde solution that meets all requirements as a superior sterilizing/disinfecting solution.
<b>Function</b>	Complete sterilization or high-level disinfection of semi-critical dental/medical instruments/devices by immersion in a manual (covered tray) system.
<b>Packaging</b>	4 litre container

Features	Benefits
<b><i>Broad Spectrum</i></b>	Biocidal to vegetative organisms including <i>Pseudomonas aeruginosa</i> , <i>Staphylococcus aureus</i> , <i>Salmonella choleraesuis</i> , pathogenic fungi as represented by <i>Trichophyton mentagrophytes</i> and lethal to <i>Mycobacterium tuberculosis</i> . Viruses are completely inactivated in 3 minutes representative by Cytomegalovirus; Respiratory Syncytial Virus; Rhinovirus; Rotavirus SA-II; Herpes Simplex virus 1 & 2; Adenovirus 2, Coxsackievirus B 52; Echovirus 8; Poliovirus 1 & 2, Vaccinia virus; Influenza A2 HK. Complete inactivation of HIV (AIDS virus) in the presence of a moderate amount of organic soil (5% blood serum) when used at a contact time of 30 seconds.
<b><i>Rapid &amp; Effective</i></b>	Complete tuberculocidal disinfection in 10 minutes and sterilization in 10 hours.
<b><i>Ready-to-Use Formulation</i></b>	Unlike alkaline glutaraldehydes, <b>GLUTERATE</b> does not require activation. The unused portion of <b>GLUTERATE</b> has an extended shelf life of 2 years.
<b><i>Advanced Corrosion Protection</i></b>	Unique anti-corrosion formulation will not damage instruments or devices (e.g. lenses, cements, plastics, rubber, steel, aluminum, brass) when used as directed.
<b><i>Safe</i></b>	Non-irritating to patients and office personnel when used as directed.
<b><i>Pleasantly Scented</i></b>	Clean, fresh mint scent masks the aldehyde odour associated with other glutaraldehyde formulations.
<b><i>Extended Use Life</i></b>	<b>GLUTERATE</b> has a reuse life of up to 30 days, even in the presence of blood, serum, mucous and soap.
<b><i>Superior Wetting</i></b>	<b>GLUTERATE</b> contains a highly effective surfactant system that ensures complete wetting. It is also extremely active in the presence of soaps and organic soil.
