

IC-GEL

Antiseptic Skin Gel

An antiseptic skin gel for rapid and lasting sanitization of hands without the use of water.

Hand washed with Soap & Water

IC-GEL, a ready-to-use ethanol-based gel, contains selected emollients to soften skin and prevent dryness, while killing 99.99% of disease-causing germs on the hands in seconds. IC-GEL evaporates quickly and leaves no irritating residue.

Hand washed with IC-Gel

IC-GEL provides antiseptic action against a wide range of pathogenic microorganisms, including gram-positive and gram-negative bacteria, viruses, fungi and yeasts.

Yellow(low)-Red(high) indicates areas of remaining bacteria

IC-GEL was designed primarily to meet professional recommendations* for skin

care practices, healthcare professionals and the general public. IC-GEL is ideal for situations such as:

- between patient contacts
- involvement in procedures requiring hand hygiene
- where no scrub sinks are available
- where return to the sink is inconvenient or time consuming

IC-GEL may also be used after soap and water handwashing to kill any remaining germs.

- Sanitizes and disinfects
- Fast acting, ready-to-use
- Economical - saves time and money
- Clear gel, non-staining and non-greasy
- No harmful or irritating residue
- Contains emollients to soften skin and prevent dryness
- Kills 99.99% of disease-causing germs on hands in seconds
- Also available in Mandarin Scent

A great way to prevent the spread of infection!
