

# PRODUCT PROFILE

## Neutrangel

DIN 01922017

<b>Product</b>	1.1% Neutral Sodium Fluoride Gel
<b>Description</b>	A viscous, translucent, colourless fluoride gel.
<b>Function</b>	Provides 0.5% fluoride ion in a neutral, unsweetened, uncoloured and unflavoured stabilized gel base.
<b>Packaging</b>	227 mL and 450 mL bottles

Features	Benefits
<i>Anti-Caries Treatment and Prevention</i>	Daily application of a neutral sodium fluoride gel has been clinically proven to arrest early root caries, recurrent decay at crown margins and rampant decay. <b>NEUTRAGEL</b> has also been proven to reduce caries in patients with radiation induced xerostomia.
<i>Application Technique</i>	Use Germiphene brand geltrays to provide maximum coverage of teeth and reduce potential for ingestion. May also apply with a toothbrush.
<i>Broad Patient Range</i>	For patients with cosmetic restorations, reduced salivary flow (due to radiation, chemotherapy, or medication) and those who cannot tolerate acidic fluorides.
<i>Office or Home Use</i>	<b>NEUTRAGEL</b> may be used in the office or in the patient's home, either daily or as prescribed.
<i>Neutral pH</i>	Gentle and effective caries prevention for patients with bridges, crowns, composite restorations. Neutral pH will not dull or etch restorations.
<i>Fluoride Strength</i>	9,040 ppm fluoride provided in a 4 minute application.
<i>Alcohol Free</i>	Gentle and will not burn the mouth.
<i>Post Whitening Treatment</i>	<b>NEUTRAGEL</b> reduces post whitening tooth sensitivity.
