

PRODUCT PROFILE

ZAP DIN 01930699

Product	Topical Anesthetic Gel
Description	ZAP is an efficacious oral topical anesthetic gel indicated to minimize pain in the oral mucosal tissues.
Packaging	ZAP is available in a 50 gram one-touch dispenser. The dispenser is “frosted” in order to allow you to see how much product is in the package. This will enable you to know when you will need to reorder.

GERMIPHENE was honoured to receive the NACD gold packaging award for the ZAP container.

Features	Benefits
<i>Sanitary Dispenser</i>	This unique container minimizes the risk of cross-contamination.
<i>Economical</i>	A light touch on the top of the container ensures the correct amount of ZAP is dispensed, thus reducing waste.
<i>Rapid Onset Of Action</i>	18% benzocaine in ZAP rapidly produces topical anesthesia within 30 seconds of application to mucosal tissue.
<i>Long Duration Of Action</i>	2% tetracaine in ZAP ensures topical anesthesia for at least 15 minutes.
<i>5 Great Flavours</i>	Strawberry Ice, Cool Mint, Cherry, Pina Colada and Bubblegum This selection of flavours enhance patient acceptance.
<i>Multi Purpose</i>	ZAP is indicated to minimize pain in oral mucosal tissue arising from needle punctures, deep scaling procedures, prosthetic adjustments, clamp or crown placement, removal of primary teeth and suture removal. ZAP may also be used for the reduction of pharyngeal (gag) reflex associated with the placement of various dental materials into the oral cavity (impression trays, x-ray films)

The efficacious formulation of ZAP is also available in a mint flavoured liquid.
